BEDARD CONTINUES ITS SUPPORT OF MEALS ON WHEELS
(MAINEiacs Chuck-a-Puck Fundraising to Benefit Seniors Plus)

Lewiston, ME—Bedard Medical Equipment and Supplies of Lewiston will continue its support of SeniorsPlus Meals on Wheels program through the Lewiston MAINEiacs Chuck A Puck program. Chuck a Puck at the MAINEiacs hockey games is sponsored by Bedard Medical Equipment & Supplies. Its fundraising efforts will launch at the November 10th Maineiacs Game.

MAINEiacs fans will be able to purchase a Bedard Medical Equipment & Supplies Chuck a Puck for \$1.00 and 100% of the proceeds at Friday night's game will be donated to Meals on Wheels. Throughout the MAINEiacs season, other non-profits will be able to raise money for their organization with 75% of money raised going toward their non-profit and 25% going toward the Bedard Medical Equipment & Supplies sponsored Meals on Wheels program.

Last spring, Bedard sponsored the Meals on Wheels Truck drive to raise money needed to purchase a delivery truck. "The support the community gave our Meals on Wheels truck drive initiative proved so successful that we are committed to continue to help those served by this program. Our Chuck a Puck program with the MAINEiacs is just another way the community can continue to help as well," said Annette Nadeau, owner of Bedard Medical Equipment & Supplies.

The Meals on Wheels Association of America is the oldest and largest organization in the United States that provides meal services to men and women who are elderly, homebound, disabled, frail, or at risk. For thousands of Maine senior citizens, a daily visit from a volunteer delivering Meals on Wheels is the single most important things that keeps them part of the community, near family and friends, and comfortable in familiar surroundings. SeniorsPlus delivers Meals on Wheels throughout Androscoggin, Oxford, and Franklin counties.

Bedard Health Care Group has three major divisions: Bedard Pharmacy, Bedard Medical Equipment & Supplies, and Bedard Long-Term Care Pharmacy. All three divisions share a commitment to providing quality health care solutions. Bedard Medical Equipment & Supplies seeks to help people recuperate from an injury or adjust to a physical challenge by providing durable medical equipment such as walkers, wheelchairs, hospital beds and more.
